INTRODUCTION

Rangatira Management Consultancy proudly presents the first of a series of High Level Summits which address tackling the problem of Methamphetamine use in Victoria; and ultimately aim to progress the development of an Action Plan for Initiatives and Solutions.

This two-day Summit commences with a presentation by the Chair of the Committee for Law Reform, Drugs & Crime Prevention, **Mr Simon Ramsay**, who will inform on the 'Inquiry into the supply and use of Methamphetamines, particularly 'ICE', in Victoria'.

Also presenting is internationally acclaimed expert and authority on Methamphetamine and a current Member of Parliament in New Zealand, **Mr Mike Sabin**, whose emphasis and focus is on achieving balance across demand reduction, treatment and supply reduction with an outcomes focus.

Complementing our lead keynote speakers is a selection of leading Professionals, sourced nationally and recognised for their success and contribution within the AOD sector, who will likewise deliver expert advice and guidance in their specialist areas.

Targeted to Professionals whose roles and responsibilities sit within and/or are focal to the AOD sector (including the Health, Housing, Justice and Education sectors), our invitation extends to all such personnel whom we believe are able to contribute significantly to the research and development of an Action Plan for Initiatives and Solutions.
