

## TEXAS Uvalde killer and his marijuana use

See Laura Ingraham's great story last night on marijuana and mass killings. Dr. Rus Kamer did a splendid job!!! Great information and very well presented.

Here is the information about the Uvalde killer and his marijuana use from the below article:

<https://www.dailymail.co.uk/news/article-10857101/Texas-school-shooting-cops-restrained-parents-trying-save-kids.html>

"Jocelyn Rodriguez, 19, a Wendy's employee, told **The New York Times** that when she heard Ramos was the shooter, she was initially shocked, but then less surprised. She knew him to have a bad temper and to snap at people.

He said he had a tendency to pick fights with co-workers and would often talk about how much he hated his mother and grandmother, **whom he told her did not let him smoke weed or do what he wanted.**"

We warned Attorney General Garland in our attached March 16, 2022 letter that had the attached exhibits. We got no response from him. This is what we told him.

### Marijuana and Violence

There are many factors that increase violence and gun deaths, but marijuana is one of the most significant factors in crime and violence. **Attached are 65 reports of marijuana involved mass violence – representing 1000s of deaths and 1000s of injuries. We are sure there are many more. Each incident has an informational link to the relevant reports of how marijuana is involved with the perpetrator's behavior. (Exhibit 5). The perpetrators of mass killings are often marijuana users or used marijuana heavily in adolescence. The Secret Service has reported on this marijuana connection. (Exhibit 6).**

Here is the video of FOX News Dan Bongino's recent interview with Dr. Daniel Amen a Child Psychiatrist. Dr. Amen mentions the brain damage caused by marijuana.

Alex Berenson who has appeared on Tucker Carlson numerous times about COVID has written a book that documents that marijuana causes psychosis and violence. He has discussed this on Tucker's show.
